INFORMATION DISCLOSURE STATEMENT and CERTIFICATION

Sir:

Pursuant to 37 C.F.R. §§ 1.51(b), 1.56, 1.97 and 1.98, this Information Disclosure Statement is submitted in the above-identified patent application. A list of documents to be published on the face of any patent granted from this application is submitted herewith on Form PTO-1449; these references have been forwarded by applicants. In the event any of the items listed on Form PTO 1449 have no specific month and/or date of publication identified: it is believed that the particular month and/or date of publication of these items is not of particular significance at this point in time; and by including these items herewith applicants do not, in any way, suggest that any of them bear a particular publication date that precedes the instant invention date. A copy of each non-U.S./foreign patent document, or each publication or portion thereof listed or herein identified, is being submitted herewith, *except that* a copy of any U.S. patent application identified herein or any patent, publication or other information listed herein cited or submitted in a prior application relied upon for an earlier filing date under 35 U.S.C. §§ 119 & 120, and hard copies of each U.S. patent and U.S. published patent app.¹ listed, are not being submitted herewith.

¹ See, MPEP § 609 III. A(2) **Legible Copies**. "...with the exception that copies of such U.S. patent documents [published U.S. patent apps. and U.S. patents] are not required if the IDS is electronically submitted via EFS or the IDS is filed in an application filed after June 30, 2003 or entered the national stage under 35 U.S.C. 371 after June 30, 2003 . . ."

CERTIFICATION

_____ This Information Disclosure Statement is submitted within three months of (i) the filing date of the above-identified U.S. National Patent application, or (ii) the date of entry into the U.S. National Stage of the above-identified International Application, or (iii) the date of entry into the U.S. National Stage of the International Application that has been assigned the above-identified U.S. Patent application number, whichever applies.

X This Information Disclosure Statement, and any associated *on-line* e-IDS, is being submitted *prior to the receipt* of the first Office Action *on the merits*² received by applicant(s) in the above-identified application.

_____ This Information Disclosure Statement is submitted after three months from (i) the filing date of the above-identified U.S. National Patent application, or (ii) after three months from entry into the U.S. National Stage of the above-identified International Application, or (iii) the date of entry into the U.S. National Stage of the International Application that has been assigned the above-identified U.S. Patent application number, whichever applies; and after the mailing date of the first Office Action on the merits of the above-identified application, but prior to issuance of the earlier of any Final Action or Notice of Allowance sent in such application. ² See, MPEP § 609 III. B(1)(a). Likewise, an information disclosure statement will be considered if it is filed later than 3 months after the application filing date but before the mailing date of a first Office action on the merits. An action on the merits means an action which treats the patentability of the claims in an application, as opposed to only formal or procedural requirements. An action on the merits would, for example, contain a rejection or indication of allowability of a claim or claims *rather than just a restriction requirement [emphasis added]* . . . or just a requirement for additional fees to have a claim considered . . .
